Re: Lehman Brothers Holdings Inc., et al. (the "Debtors")

Ladies and Gentlemen:

As you are aware, the Ad Hoc Group of Lehman Brothers Creditors (the "Group") has concerns about the adequacy of the Debtors' public disclosures of financial information. After first raising its concerns with the Official Committee, the Official Committee suggested that the Group develop and present to it proposed disclosures that, if made by the Debtors, would alleviate the Group's concerns.

In formulating a proposed disclosure request, the Group reviewed the Debtors' prior public disclosures and considered the Debtors' disclosure obligations under applicable securities laws as well as the US Trustee guidelines. The Group also considered the relative burdens on the estate and the likely availability of the requested information in light of the specific circumstances. Ultimately, the Group attempted to strike an appropriate balance between strict compliance with applicable disclosure and reporting requirements of public companies and debtors in possession and reporting that is reasonable and appropriate for the Debtors given their size and complexity.

The Group presented its initial suggestions to the Official Committee's professionals to solicit their input. After several rounds of consultation, the Official Committee's professionals presented the Group's suggestions to the Official Committee. The result of this process is the attached Disclosure Request, which we understand has the support of the Official Committee. We now present the Disclosure Request to the Debtors for their review and consideration.
